Slow learners were identified on the basis of their performance in University examinations of previous year. 13 slow learners among whom 11 females, 2 first class, 4 third class, 5 second class were identified.

After remedial coaching was given, there were only 3 distinctions and 9 Distinctions.

Overall there are NULL failures after remedial coaching.

- (1) Nuclei prison
- (2) Binocular
- (3) polarisation
- (4) circular & elliptically polarised light
- (5) Zero plane
- (6) Adiabatic demagnetisation
- (7) optical communication system
- (8) Holography
- (9) Malus' law
- (10) Difference b/w interference & diffraction
- (11) polarisation
- (12) Rindling power of grating

STUDENT QUALITY CIRCLES

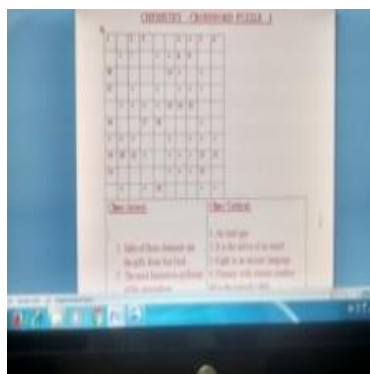

Chem English flash cards

The Department of Chemistry conducted a student centric activity titled “Cheminglish Flash cards”. Each ‘Cheminglish Flash Card’ comprises of one Question on English literature and one question in the Chemistry subject. But the answers for these questions will be on another flash card which will be with another student in the class. For every right answer the student is awarded one point. The student who secures maximum points is declared as the winner. The activity of flash cards enriches the subject content among the students

Chemistry Crossword puzzles

The Department of Chemistry introduced Chemistry cross-word puzzles as an innovative tool for teaching Chemistry. The Crossword Puzzles may be prepared chapter wise, in accordance with the common core syllabus. The Crossword Puzzles are the most effective and innovative tool for teaching Chemistry, because they inculcate interest, provide awareness, also they impart a holistic approach to the students of Chemistry.
